

## GRANDEE RinG-Pen

1 (Center of Gravity) is the same as  
2 (Point of Support) and removes  
3 (Grip Force Location) to Write

Periods of writing will not necessarily  
cause fatigue leading to CTS and strain.

People with existing hand problems  
are able to write for short periods and  
for some even for extensive periods.

## Conventional Cylinder Pen

1 (Center of Gravity) different than  
2 (Point of Support) and requires  
3 (Grip Force Location) to Write

Periods of writing can cause fatigue  
leading to CTS and strain.

People with existing hand problems  
are often unable to write  
- even for short periods.
